

The Messenger.

OFFICIAL PAPER OF THE CITY.

FRIDAY, APR. 3, 1874.

LOCAL NEWS.

Joe McKinnis has a new hat.

Dr. Stinson has removed his office to the rooms over Lull's bookstore.

A. C. Lull celebrated the fifty-fourth anniversary of his birthday a few days ago.

Sixty or more persons came from Hudson last evening, to listen to the Tennesseans.

The Wheeler Brothers will open their new store in the Bernheimer block about the 15th inst.

The American Express office has been removed to the Rhodes building on Chestnut street, two doors east of Main.

Some six or seven hundred lumbermen have returned to this city within the past week, the lumbermen being crowded almost every night.

One of our citizens picked up a \$100 bill on the sidewalk on Wednesday, but concluding that it was "the day we celebrate," he let it drop.

This being Good Friday, and by the laws of this and many other States a legal holiday, the business places of the city are closed.

Ph. Dotz has decided to go out of business for the present, and his store will be occupied by parties who will open a stock of confectioneries.

The Commissioners of Pine county have a meeting today, to decide upon the expediency of issuing \$12,000 in bonds for the purpose of building a court house.

The pulpit of the Second Presbyterian church will be occupied next Sunday evening by Rev. J. H. Macomber, and that of the Methodist church by Rev. Jas. A. McGowan.

The 25th of the course of lectures by Rev. L. N. Otis, on Religion and Science, will be delivered at the First Presbyterian church, at 10 o'clock, on Sunday.

Subject: The Origin and Antiquity of Man.

All kinds of business have improved within the past week or two, owing to the cessation of money having been put in circulation by the lumbermen receiving a portion of their pay for their winter's work.

The Danes who murdered Wm. Webb some months ago, walked out of the jail at Okechosa county, if reports are correct, there is much sympathy for the murderers in Okechosa, which may have assisted in aiding his escape.

Next Wednesday was quite warm and spring like, but the heavy rain we had on Tuesday, and the fact that the wind got around into the north-west, again, and the day was raw and chilly.

The day (even school district last Saturday evening) was a very fine one, and the children were very happy, and the day was very fine.

The St. Paul Press says the St. Paul, Stillwater and Taylor's Falls Railroad is one of the best paying roads in the State, in proportion to its cost. This road pays the interest on its bonds from its earnings, which for roads in the State have been able to do.

A meeting of the society of the Second Presbyterian church was held on Monday evening, when it was decided to authorize the trustees to sell a portion of all of the church property on Pine street, and Capt. Gray, Capt. Brown and Dr. W. Armstrong were appointed a committee to solicit aid for the erection of a new church building, or for making necessary and permanent improvements of the building now occupied.

The Republican City Convention, to nominate candidates for Mayor, Treasurer and City Justice, will meet at the Court House next Monday evening, and will be composed of six delegates from each ward. The ward caucuses will be held to-morrow evening, as follows:

First Ward—Court House
Second Ward—Engine House
Third Ward—Hansson's Boat Shop.

We hope every Republican in the city will be present at these meetings, so that the best of men may be placed in nomination, or sent as delegates to the City Convention.

Daniel Sullivan, arrested on a charge of murder, whose case was referred to last week, was taken to Hudson Sunday morning, to be present at the meetings, so that the best of men may be placed in nomination, or sent as delegates to the City Convention.

Marshal Cleveland, the necessary papers having been obtained to secure his surrender to the Wisconsin authorities. The deposition of Oia Dahl, the murdered man, was taken previous to his death, and it is said that Sullivan will find it hard to overcome the consequence of this evidence. Sullivan was first taken to Hudson, whence he was to be conveyed to Grantburg, Burnett county, (in which county the act was committed) for preliminary examination. He will probably be brought back to Hudson to lie in jail until the sitting of Court in Burnett county.

State Atlas Views.

We are glad to see the interest taken in the county in having it well represented in the new department. Mr. Sharp has a large list of representative views which will adorn the Atlas and show the business and enterprise of this county. We have seen some of the sketches and have been pronounced them first class.

Every one who has been there speaks of Sellick's fine assortment of Cloths and Clothing, and the surprisingly low figures at which the same are offered.

Personal.

Al. Hoopes returned from his winter's sojourn in Hot Springs and St. Louis last Monday evening, greatly improved in health.

C. S. and Warren Getchell of Alton were in the city on Wednesday.

Geo. W. Plimley of Minneapolis was in the city on Tuesday, and left the next morning for Chicago, having purchased an interest in the Tribune, which is published in that city.

Geo. L. Sharratt of the True Republican, and John Glover, both of Hudson, were in the city on Saturday, for the purpose of securing Daniel Sullivan.

J. A. Deragich, the business manager in Stillwater, Bookkeeper & Co.'s store, left for New York and Boston on Wednesday to purchase goods for the spring and summer trade.

G. W. Copley, late bookkeeper at Seymour, Sabin & Co.'s establishment in this city, at present in the Merchants' National Bank, St. Paul, was in the city on Sunday.

Prof. Fanning of St. Paul was in the city yesterday, making arrangements for opening a dancing school on Monday evening next.

Hon. Loren Fletcher and Wm. F. Cahill of Minneapolis were in the city on Monday.

Go to Sellick's and have your measure for Coats, Pants and Vests. Good fits guaranteed.

Dancing School.

Prof. Fanning of St. Paul, who enjoys the reputation of being the best teacher of his art in the West, will open a school for ladies, children and gentlemen in Hersey & Staples' Hall, Monday at 8 P. M. for ladies and children, and on Tuesday at 8 P. M. for gentlemen.

He is a native of the State, and has the advantage of this free city to show to the ladies the lovely "Boston Girl," "Newport Girl" and "New York Girl" waltzes. These, as we understand it, are the present fashionable dances of the day, and besides the Ballroom and Gaiety are the only round dances taught by him. The West End, according to the St. Paul press, is simply lovely. He teaches only the New Lanciers and Prairie Queen Quilts. He will certainly have a large class here.

Interesting to Invalid Ladies.

Marietta, Columbia Co., N. Y. July 9, 1873. R. V. Pierce, M. D.

Dear Sir—Your favor is just received. I am glad to hear that you are well, and I am sure that your health is improving. I have used your medicine, and it has done me much good. I am sure that it will do you much good also. I am, Sir, your obedient servant, R. V. Pierce, M. D.

The many friends of Mrs. Isaac Staples were added last evening on hearing of the sudden and serious illness of this estimable lady. Several of our city physicians and a physician from St. Paul were summoned to her bedside, and under their skillful care we are gratified to find that she is considerably better this morning, with a prospect of soon being out of danger.

The lingering connection of heavy winter with the leaf of the Spring continues to be the subject of much scandal.

The new press, now applied members of the St. Paul Board of Education, together with the virtuous Superintendent Gage, had a secret session on Wednesday, and the virtuous living people are anxious to know what they are going to do about it.

Our mill owners are actively engaged in getting ready for starting up their mills. Hersey, Dean & Brown have run their lower mill nearly all winter, and have been saving logs for some days. Next winter they expect to be able to saw logs all winter. The Crook Mills is expected to start in the latter part of the winter, and will run for several years, having cut a channel through the ice to get at the logs. All the mills along the lake will probably be in operation within two weeks.

Lumbermen's Board of Trade.

The annual meeting of the Lumbermen's Board of Trade, which should have been held March 2, did not take place, on account of terrible storm then raging, and many members not having returned from their excursion to St. Paul. Mr. Proctor, the Secretary, being the only person present, adjourned the meeting until last Tuesday, when the following named persons were present: E. L. Hoopes, President, J. B. Proctor, Secretary, Dr. Brown, M. W. Armstrong, S. Harrison, L. Cowan, David Turner, S. Harrison, J. H. McCurt, Chas. N. Nelson, R. E. Hersey, A. Glendinning, A. Scott, James Mackey, L. E. Torinus, D. H. Hersey, and P. Whalen.

The meeting was called to order by the President, Ernest L. Hoopes. Minutes of meeting held November 17 read and approved.

The Treasurer, Ernest L. Hoopes, read his report, showing receipts and disbursements as follows:

Receipts.....\$2,337.02
Disbursements.....\$208.36
Balance Due Treasurer.....\$1,348.66

The total assessments due the Board for 1873, which have not been paid, amount to \$253.33. For 1872 the uncollected assessments amount to \$115.50, making a total of uncollected assessments of \$368.83.

The reports of the Secretary, Treasurer and Agent were accepted and read.

The old officers were re-elected as follows:

President—E. L. Hoopes.
Vice President—S. J. Cowan.
Secretary and Treasurer—J. B. Proctor.

Directors—D. Brown, L. E. Torinus, Jacob Dean, Wm. H. Fraze, D. Tozer, C. N. Nelson and Smith Ellison.

Every E. McKinnis was reappointed Agent of the Board, to collect scattering logs.

The Agent was instructed and required to collect pay for all scattering logs during the season of 1874 before delivering same.

The price of scattering logs for month of April was fixed at \$9 per thousand for first grade, and \$7 for second grade.

The President, Vice President and Secretary were authorized to employ a river police.

A resolution introduced by C. N. Nelson relative to the appropriation of logs by saw mills without authority was adopted, which is published officially on the first page, among the new advertisements.

The President was instructed to require the Agent and Treasurer to furnish a bond of \$500 each.

It was decided to have meetings of the Board on the last Thursday of every month, at 2 o'clock P. M., during the season.

Adjourned.

Just opening a fine stock of ready made clothing for Spring. All the best from \$10 to \$25 per suit.

S. Sellick's.

AFTON.

Afton, March 27.

The winter term of the St. Croix Valley Academy closed today, after a public examination of the scholars. The scholars passed the oral with great honor to themselves and credit to their teachers. The prizes offered by E. March for the best essays were duly distributed. The committee awarded the first prize (Wheeler's unabridged dictionary) to essay on "Nature and Motives of a Liberal Education," by Fred Cronin, second prize (Poems of Whitman, Longfellow, and Lowell) to essay on "Model Student," by Belle Middleton. Mr. March generously increased his offer of prizes, and Mr. Jas. Middleton also added prize for the essay on "Model Student." The spring term of school commences April 13.

Respectfully.

The Tennesseans.

Notwithstanding the excellent service of currency Hersey & Staples' Hall was filled last evening on the occasion of the first appearance in this city of the Tennesseans. All the reserved seats (200) were sold before the doors were opened, and there has never been done before since this hall was erected.

The concert was an unequalled success, viewed in whatever aspect, and the audience, more or less critically, was wild with applause, many of the songs being enthusiastically encored. The voices of all the troupe are cultivated to a high degree of perfection, and the result of the concert was a most artistic success. But the main interest of the audience was in the plantation and camp meeting melodies, many of which, though simple, were quite affecting.

Some doubts were entertained by our readers as to the object to which the proceeds of these concerts is to be devoted, we publish the following letter from the President of the General Tennessee College to Prof. Donavin, the manager of the troupe:

Dear Bro. Donavin—Yours of the 10th with P. O. order for favor of Laura B. Donavin, brother, is received. I will attend to it in the morning. I am sending you a great deal of thankfulness to our Heavenly Father for his love and health and the many blessings he has bestowed upon us. I am, Sir, your obedient servant, R. V. Pierce, M. D.

The land here is very fertile, and the prospects seem so near our realization for additional buildings, which have become a dire necessity. We are now crowded. We expect with the opening spring some of our students will leave for the farm and the school room, but I think only to get means to return and finish their course of study, or rather to get some more of it. The singing of "The Tennesseans," I saw, is every where spoken of in the highest terms. God bless you with life and health, and all your friends. It would be very sad to have any of the number taken away from us. I pray we may be spared to see you all again. I am, Sir, your obedient servant, R. V. Pierce, M. D.

Kindly send me a copy of the number taken away from us. I pray we may be spared to see you all again. I am, Sir, your obedient servant, R. V. Pierce, M. D.

Annual School Meeting.

The annual meeting of the St. Lawrence School District was held at Concord Hall on Saturday evening. The hall was well filled, almost every seat being occupied.

Wm. M. McEller was called to the chair, and Dr. J. C. Hilder, Clerk of the district, acted as Secretary.

Prof. Garrison read the report of the School Board, which was accepted.

The election of two members of the School Board being in order, it was voted to have an informal ballot.

G. H. Bates and W. S. Conrad were appointed tellers. The informal ballot resulted as follows:

T. J. Jansy 9 votes, R. Lehnke 124, E. A. Hunsicker 66, Perry B. Smith 30, A. M. Duld 20, Wm. William 40, D. Brown 30, J. C. Hilder 78, Wm. McKinnis 13, scattering 13.

On motion of Mr. Marsh R. Lehnke was unanimously elected by acclamation. Dr. Rhodes was also elected by acclamation, with few dissenting votes.

On motion of Mr. Armstrong it was decided to have but nine months of school the coming year.

The next order of business being the voting of a special tax for the purpose of the Board, the Board recommended that the sum of \$12,500 be voted for such purposes.

Mr. Hunsicker moved that the sum of \$10,000 be authorized to be raised, saying that under the operation of the new tax laws a considerable amount of taxes have been delinquent for one or more years would soon be paid in, and that the tax for 1873 would soon be paid, and that he had no doubt \$10,000 special tax would be amply sufficient.

Mr. Hunsicker thought \$12,500 insufficient, there being many improvements to be made in the new and old school house and grounds, and the Board will need considerable extra money for that purpose.

The Treasurer, Wm. G. Brown, thought \$10,000 insufficient. Last year we voted \$12,500 and this year a large new school house is to be occupied, necessitating more teachers and greater expenditures.

Senator Sellick said he believed in giving the Board what they deemed necessary.

A resolution introduced by C. N. Nelson relative to the appropriation of logs by saw mills without authority was adopted, which is published officially on the first page, among the new advertisements.

The President was instructed to require the Agent and Treasurer to furnish a bond of \$500 each.

It was decided to have meetings of the Board on the last Thursday of every month, at 2 o'clock P. M., during the season.

Adjourned.

Just opening a fine stock of ready made clothing for Spring. All the best from \$10 to \$25 per suit.

S. Sellick's.

Report of the Levee Committee.

Pursuant to announcement the committee appointed at a public meeting in January last to ascertain as to the feasibility of securing a public levee between their report at the close of the school meeting on Saturday evening. Thereupon the committee, consisting of the chairman, Hon. B. M. Sellick, and accompanied by a plat of the lake front selected for the purpose, being 100 feet of Stinson street, commencing at Chestnut street and running south to the north line of the City of St. Paul, having property, giving a frontage of 664 feet, including Chestnut street.

Mr. Sellick stated that they had gone over the property, but while they could not estimate the probable cost of the enterprise they deemed it of incalculable benefit to every citizen of St. Paul.

The committee believed the necessary frontage could be had now for condemnation and acquisition of the land and damages at a small cost, and they delay the railroad may get hold of the property, and deprive us of a levee forever.

Mr. Butler moved a vote of thanks to the committee, and that they make the same report and recommendations to the Council.

Hon. Wm. McKinnis suggested that Mr. Sellick, one of the principal taxpayers of the city, be requested to express his opinion on the matter.

Mr. Sellick said he was heartily in favor of the enterprise, and considered it the most favorable time for inaugurating it.

Mr. Hunsicker urged all who desired the levee to vote for the issuance of the necessary bonds (\$25,000) to secure the same.

Mr. Torinus said we needed a levee, but doubted our financial ability to secure one at the present time, estimating that the lands to be taken would cost \$100,000.

Mr. Butler said this was almost a matter of life and death to the city; we need a levee, cost what it will.

Mr. Sabin (D. M.) thought if he owned all the property to be taken he would consider it a most profitable speculation, but he would not take it for the sake of a levee. Should the railroad secure this property it would forever prevent our having a levee, and we would therefore be at the mercy of the railroad, which is an inland city, which would be highly acceptable to the railroad companies, which are not at all anxious for us to secure cheap river freight.

A motion to accept the report of the committee, and request them to make the same report to the Council was unanimously adopted, when the meeting adjourned.

Kindness of the Moon.—As a Spring Medicine. As a remedy in the Spring of the year, to carry off the accumulation of thick bile from the Liver, and to cleanse the system, the King of the Blood is invaluable. One or two bottles will remove all the functions of the body to healthy action, and the appetite, clear the brain, and carry off the elements of languor and heaviness everywhere felt, more or less, as warm water approaches. See advertisement in another column.

Weather Notes for March.

Maximum temperature, 45 degrees. Minimum temperature, 15 degrees. Range, 30.

During the month 10 inches of snow fell, reduced to water, 1.95 inches. Rain, 14.10 inches. Windy amount of water, 1.15 inches.

Died.

LEIMICK—In this city, March 21, Victor L. Leimick, aged 2 months.

Heavy Taxes.

The following communication was in type last week and would have been published, but was unavoidably crowded out, as also were several new advertisements, by the press of other matter:

In the last Gazette, over the above signature, some good meaning fellow blunders away and attempts to demonstrate something about the park bonds which are to be voted upon in a few days. Among the wild splashes of Old Heavy he notices the tax payers, that these bonds are to be used to fit a roadway for the benefit of the Driving Park Association.

Now the act allowing the issue of these bonds reads in one section as follows:

Provided that no part of said bonds nor any money received from the sale of said bonds shall be used or expended for the purchase of any race track or amusements thereto belonging, nor for any expense appertaining or connected with the same. But the same may be used by the city council for the purpose of purchasing and fitting up a public park and a race and drive way around City Lake.

The next section reads as follows: "The city council shall have the right to sell or lease any land, building, or other property, and to use the proceeds of such sale or lease for the purpose of purchasing and fitting up a public park and a race and drive way around City Lake."

Now it is plain to see that the city council has the right to sell or lease any land, building, or other property, and to use the proceeds of such sale or lease for the purpose of purchasing and fitting up a public park and a race and drive way around City Lake.

Now it is plain to see that the city council has the right to sell or lease any land, building, or other property, and to use the proceeds of such sale or lease for the purpose of purchasing and fitting up a public park and a race and drive way around City Lake.

Now it is plain to see that the city council has the right to sell or lease any land, building, or other property, and to use the proceeds of such sale or lease for the purpose of purchasing and fitting up a public park and a race and drive way around City Lake.

Now it is plain to see that the city council has the right to sell or lease any land

This image shows a vertical strip of a document page. It features a grid of empty boxes, likely for data entry or a form. The boxes are arranged in a single column, and the page is otherwise blank.

OFFICIAL PAPER OF THE CITY.

FRIDAY, APR. 24, 1874.

LOCAL NEWS.

Deity to-day, somewhat more of loss.

Hon. J. N. Castle was re-elected City Attorney last evening.

Business will open at the elevator about the first of May.

R. H. (sometimes called "Bald") Davis has been elected City Assessor.

Onions were sold in this city today for 84 per bushel, merchants paying \$5.50.

Our business men are anxious to see the street sprinkler commence its peregrinations again.

The steamer Red Wing reached St. Paul from below Lake Pepin about a week yesterday morning.

The ice is out of the lake as far down as the mill of the St. Croix Lumber Co. in South Stillwater.

The Swallow came up from her winter quarters opposite Baytown last evening. But one Swallow doesn't seem to make a summer.

New time cards go into effect on the West Wisconsin and St. Paul and Stillwater roads, next Sunday, which will be found on the first page.

A gentleman of this city who was visiting the southern part of this country a few days ago, saw nine seeders at work in one field on Dalrymple's farm.

We are glad to notice increased business at the Sawyer House. Lovers keep a first-class house, and travelers find the Sawyer House a pleasant place to stop.

Winter is almost as stubborn and miffish in relinquishing its control of the weather as the St. Paul Board of Education is in obeying the wishes of the people of that city in respect to Gages.

The workmen are busily engaged in putting to a speedy completion the work on the new Assenion church on Third street. When finished this will be one of the finest church buildings in the city.

The Presbytery of St. Paul met in St. Cloud on Tuesday evening of this week. Revs. L. N. Otis and Jas. A. McGowan and Elder D. L. Burlingame represent the Presbytery of this city.

The Nellie Kent is making daily trips between this city and Taylor's Falls, leaving Taylor's at 11 o'clock, and arriving at 11 o'clock, and vice versa.

Extensive alterations are being made in the old Minnesota House building, corner Main and Chestnut streets. The owner, H. T. Taylor, intends to convert the front part into a saloon, the rear being fitted up for offices.

We were in error last week in saying that Pat. Stuck, the escaped felon, was assisted to escape by convicts in the kitchen. There are strong indications that the Prisoner, who is now in the St. Paul Jail, is being assisted to escape in the matter that was consistent under the circumstances.

R. D. Lawrence, well known to our citizens as a first-class paper hanger, has returned to the city, and has opened the office of E. C. Hecker, sign and house painter, whose shop is opposite the Sawyer House, on Myrtle street. Orders for paper hanging will receive prompt attention.

A hundred or more members of the Catholic Temperance society of the place went to St. Paul last Tuesday evening by special train, to participate in the exercises attending the celebration of the first anniversary of the organization of the Society of Temperance Crusaders in St. Paul. The Stillwater Cornet Band accompanied them.

Mr. W. M. Leyle of Newport, Washington county, has lately returned from Washington, D. C., where he has spent some time in securing a patent for an improvement upon grain separators, which is represented as the best thing ever yet invented. With this improvement, a good machine can thresh 1,000 bushels per day.—Pioneer.

The union temperance meeting held last Sabbath evening at the First Presbyterian church, was largely attended and quite enthusiastic. Mr. Satterlee gave an earnest and sensible address which was listened to with marked interest. At the close of the meeting a society was formed auxiliary to the State Temperance Association, with the following officers:

President—Maj. Van Vorhes.
Vice-President—Mrs. Jones.
Secretary—Mr. Bradford.
Treasurer—R. L. Johnson.

The meeting voted to invite the State association to hold a meeting here early in June.

The following are among the expenditures for educational purposes in Kanabec county for the past year, as published in the Free City News:

Paul Elts Cleary for teaching school house.....\$200 00
Paid A. Stinson for boarding schoolhouse.....40 00
Paid Mrs. Clark Matison for teaching school.....60 00
Paid for boarding Miss Matison, schoolhouse.....40 00
Paid expenses after schoolhouse river.....10 85
Paid for working and repairing school house.....3 00
Paid Mrs. R. King for teaching school.....90 00
Paid Mrs. Stinson for teaching schoolhouse.....60 00
Samuel Hock, salary as school superintendent.....12 00

L. M. Story, late of Iron Old No. 18, has removed his goods to the stand occupied by Hugh McKenna last season, adjoining Moore & Kimball's store. Story's new quarters are equal in size to the old one, and his stock of goods, fresh and dry, is better than ever. Price reasonable and suitable.

Cedar Falls, Cedar Churns and Woodware at 95¢ per bushel.

The Felo de Se Apud, in Court Township.

Last week, announced the death of Peter Rathberger, in Grant township, who had hung himself. On the day of Peter's burial his son-in-law, John Widmer, disappeared, and was not seen again. Search was not made for him, it being supposed that he had left the country, thinking that the public might suspect him of being an accessory to the death of his father-in-law, toward whom he had not manifested the most filial feelings.

Yesterday afternoon as Ferdinand Combs who lives a mile west of Widmer's house, was looking for his cows he discovered the body of Widmer lying on the ground in a little hollow close to a pond, with a strand of an anchor rope around his neck. He had evidently hung himself to a small oak tree where he was lying, as a portion of the strand was fastened to a limb of a tree about seven feet from the ground. The strand being broken it was supposed that Widmer had jumped to this spot and hung himself, but this was not the case, as the strand was severed by the continuous weight of the body.

Coroner Rhodes visited the scene of the suicide this morning, and held an examination, but being unable to find any clue as to the cause of the suicide, he believed that Widmer came to his death except by his own hands no inquest was held.

Widmer was about 30 years of age. He leaves a wife and three children. His case was of the extreme.

Several weeks ago civil actions were commenced in the District Court against Peter Rathberger and John Widmer, now deceased, and traveling salesman from the late Geo. Jenks. Rathberger and Widmer were greatly worried in their minds by this pending suit. Widmer remarked to one of his friends that he feared the "old man" would kill himself in consequence. His fears seem to have been realized, and it is probable that within 24 hours from the time when his father-in-law rushed unaccountably into the presence of his Creator, Widmer's life had also terminated.

Mrs. Van Cuyt has changed her apartment for Stillwater, and will not commence her labors here until Monday evening, April 27. She is now in Minneapolis, where she has several business connections, and many people are waiting for her to arrive. We hope she will do good in Stillwater. She has the entire management of the new church on Third street, and is to hold services on Sunday evening, April 27, and on Tuesday evening, April 28, at 7 o'clock, and on Wednesday evening, April 29, at 8 o'clock.

We do not imagine that any more danger attends the handling of firearms on Sunday than any other day, but it is a singular fact that almost any accident occurs from handling guns on Sunday during the remaining days of the week, from which we infer that Sunday is a favorite day among many sportsmen for indulging in their favorite pastime. Last Sunday, for example, a Nimrod from New Richmond was deprecating the fourth prohibition in the Decalogue, near Sumner, when one of them, Wm. H. Bell, in drawing his fowling piece from the rack, was according to a custom of the day, in front of the barrels, and drew the weapon toward him. Of course one of the hammers came in contact with the end-barrel, and of course the result was a discharge of the weapon, which was intended for other game. The shot entered the right arm near the junction with the body. The man was taken to the hospital, and will doubtless recover.

For Sale.

New milk Cow and calf. Enquire of HARRY WHEELER.

What might easily have been a serious tragedy took place at the St. Croix river last night last Sunday night. Mr. Knipps' friend, Fred Wachsmuth, had locked the door of the saloon, and was standing behind the bar, counting the scrip which had been accumulated during the day when he heard the report of a fire arm, and about as nearly the same time as he recollects the bullet whizzed by his right temple, the bullet being adjacent to the middle of the forehead. He then fell on his back, and lay motionless on the floor. The bullet entered the right arm near the junction with the body. The man was taken to the hospital, and will doubtless recover.

Curiosity prompted Mr. Wachsmuth to extract the ball aimed at his head from the wound in which it was imbedded, and in doing so he was unfortunately cutting the bullet so that it could not be used in identifying the cowardly miscreant who expelled him from the saloon through no fault of his own. He is still at large, and is doing his best to establish his guilt.

Having no rent to pay, and buying my goods exclusively for cash, I am able to offer purchases better inducements than can be found elsewhere in the city. Enquire of J. W. DAVIS.

Polly Parwell "denies the allegation, and denies the allegation." He has a large stock of children's wagons, carts, toys, etc., which he will come out at prices to suit customers. Sign of the Big Top, over Main street, 2700.

Death of "Buckskin."

"Cape Race, Jr., more commonly known by the name of "Buckskin," died on Monday, without assigning any cause for his sudden demise. Though possessing no points of beauty, Buckskin could get over the ground with as good speed and skill as any horse in the city, and was a favorite with the public. He was owned by Mr. J. W. Davis, and was valued at \$500.

REMEMBRANCE.—On Monday, April 21, at 10 o'clock, a young man named John J. Davis, aged 1 year, 1 month, and 22 days.

Record of the Rockless.

Six little boys were brought before Justice Conant on Friday last, charged with fighting and disturbing the peace. On account of their youth they were dismissed with a reprimand, on promise of future good behavior. We hope we will never have occasion to give the names of these boys in this column.

On Monday warrants were issued against Herman Woldrich, Frederick Mackenhausen, Henry Stephan and Chas. Steiner, for breach of the peace. They were brought to trial in the afternoon, and the evidence showed that they were having a quiet (I) quarrel in the street, and were not disturbing the peace.

In consequence of the amusement house referred to, some one hurled stones through the windows of Rudolph Fritsche's house, the glass falling in and scattering about. Fritsche, who was in the house at the time, was not hurt, but the stones were scattered about in such a manner as to cause him to believe that his life was in danger. Fritsche arose to quell the disturbance, and seeing, as he supposed, one Reinhardt Kesselmann, who was in the house, he seized a stick of wood, and hurled it at Kesselmann's head. Kesselmann, who was in the house, was not hurt, but the stick was scattered about in such a manner as to cause him to believe that his life was in danger.

Frank Kelly, who was in the house, was not hurt, but the stick was scattered about in such a manner as to cause him to believe that his life was in danger.

Go to Sellick's and leave your measure for Coats, Pants and Vests. Good fit guaranteed. 900-17.

Sevensdays Wonder.

The editor of the Stillwater Gazette gives notice in his last issue that he has on hand for exhibition "two hen's eggs—the largest measures nine inches one way and eight and a half the other, and weighs just six ounces."

Now it is presumed that the form of the said egg, is similar to other hen's eggs, as the editor does not state the contrary. To find the solid contents of a sphere we multiply the circumference of the diameter by the circumference, and divide by four. Following this rule, the solid contents of Mr. Easton's shell is 921 cubic inches! 921 cubic inches of matter weighing only six ounces! Consequently, the greater portion must be gas, and I would caution the editor to handle his "egg" with extreme care, otherwise he may suffer the derangement of one at least, of his organs of sense.

Dalm has just received a fine lot of Ladies' Baskets and Willowware. Enquire of J. W. DAVIS.

Death of Alex. McKee.

This gentleman, well known to very many of our readers, died of lung fever at his residence in Marine on Tuesday evening, April 22, at 10 o'clock.

Mr. McKee was born in Prince Edward's Island in 1810, and came to Marine in 1850, and engaged in lumbering during the winter of 1850-51, when he suffered the amputation of his left foot, which had been crushed by the horse-power of a threshing machine, and was compelled to give up active business.

During his residence in Marine Mr. McKee was regular in his attendance at the Congregational church, but whether he was a member or not we have been unable to learn. His last words, in conversation with his pastor, Rev. Wm. M. Wald, were full of confidence and hope regarding his future state of existence. His funeral took place at the Congregational church in Marine yesterday, April 23, at 10 o'clock.

Just opening a fine stock of ready made clothing for Spring. All prices from \$10 to \$25 per suit. 900-17.

COTTAGE GROVE.

Correspondence of the Messenger.

LOCUST MATTERS.

Located at the headquarters of the leg department, we look to you to be posted in matters relating to logs, not only the quantity, but prices, best recent and prospective. Please make a note of this.

PLANT CULTURE.

Seeding is dragging its slow length very slowly. The farmers about here sowing fax quite largely this year, which is proving a good crop, to seed in barley between other grains, as it ripens earlier than wheat or oats, and can be harvested and taken care of before the hurry of wheat harvest. It forces the ground in better condition for wheat than any other crop, except perhaps corn. The seed is converted into oil at Minneapolis, and the straw into fuel here. I expect a few more will take to it this year, and make some fifty tons of it, thereby affording employment to six men for four months. Next season I expect to have sufficient stock to run my mill the whole year. The great difficulty the farmer has heretofore had has been in threshing. This season I take the crop unthreshed, doing the threshing myself with a machine manufactured expressly for this work. S. W. FARMER.

Merchant Tailoring.

Sellick has received a fine lot of ready made clothes for the spring trade, and guarantees as fine suits and as good fits as can be found in the State. His cutter is well known to be one of the best in the Northwest. Prices 10 to 20 per cent lower than for the same quality of goods. 900-17.

Joseph Dalm pays the highest price for Country Produce. 900-17.

City Council.

Tuesday Evening, April 23, President—Geo. M. Seymour, Treasurer—Moses Anderson, Deraglich, Haussner, Jassoy, Matthews, Tuor and Tuor.

Communication from Mayor Brown, relative to which was referred to the committee on compilation of the charter and ordinances.

SENIOR COUNCIL.

President—Seymour gave notice of his appointment of the following standing committees:

Ways and Means—Tuor, Matthews and Haussner.

Ordinances—Deraglich, Anderson and Tuor.

Claims—Moore, Jassoy and Deraglich.

Buildings—Tuor, Haussner and Haussner.

Streets—Anderson, Haussner and Moore.

Mr. Deraglich suggested that President Seymour should have a place on the Building Committee, and that Mr. Haussner should be excused. Mr. Seymour's name was substituted for Mr. Haussner.

The Clerk was instructed to purchase a chair, and to purchase a table for the use of the Council.

Communication of the Secretary of a public meeting held on Thursday evening, relative to desisting in Murray county, and requesting the Council to desist in Murray county.

Petition of 31 freeholders for the construction of a sidewalk on the west side of Main street, from S. & T. F. R. depot to Hersey, Bean & Brown's mill, and that the grade of said part of Main Street be established, and be ordered graded.

John Shurtall was granted a retail liquor license.

A resolution offered by Mr. Haussner was adopted, instructing the Clerk to purchase 100 sheets of paper at the expense of the city for destitute settlers in Murray county.

County Auditor Lehnstedt stated that the new tax law required the Assessors of the county and city to meet at his office next Saturday, and suggested that the Council appoint an Assessor for this purpose.

For this purpose Mr. Golden Medical Discovery with very small doses of opium, and their effects on the human system are generally spoken of in the common people, blotch or eruption. Great eating ulcers kindly heal under the use of this medicine. Yarn and other goods are generally spoken of in the common people, blotch or eruption.

On motion of Mr. Matthews the election of City Attorney was postponed until the next meeting.

The election of City Printer was postponed until the next regular meeting. bids to be received until that time.

On motion of Mr. Haussner the election of City Attorney was postponed until the next meeting.

On motion of Mr. Haussner the election of City Attorney was postponed until the next meeting.

On motion of Mr. Haussner the election of City Attorney was postponed until the next meeting.

On motion of Mr. Haussner the election of City Attorney was postponed until the next meeting.

Liver and Blood Diseases.

A healthy liver secretes each day about two and a half pounds of bile, which contains a great amount of waste material taken from the blood. When the liver becomes torpid or congested, it fails to eliminate this vast amount of noxious substances, which are carried to every part of the system. What must be the condition of the blood when it is receiving and retaining each day two and a half pounds of poison? Nature tries to work off this poison through other channels and organs—the kidneys, lungs, skin, etc., but these organs become overtaxed in performing this labor in addition to their normal functions, and can not long withstand the pressure, but become variously diseased. The liver is the great electrical center of all vitality, it is unduly stimulated by the unhealthy blood, which passes to it from the heart and it fails to perform its office healthfully. Hence the symptoms of liver disease, which are a general debility, incapacity to keep the mind on any subject, impairment of memory, dizziness, sleep or nervous feelings, gloomy forebodings and irritability of temper.

The liver forms the sweat upon the surface of the skin, it is so irritating and poisonous that it produces the ored broken spots, pimples, blotches, and other eruptions, sores, boils, carbuncles and scalding humors. The stomach, bowels and other organs can not escape becoming affected, sooner or later, and we have the result, constipation, piles, dropsy, dyspepsia, diarrhoea. Other symptoms are common, as bitter or bad taste in the mouth, internal heat, palpitation, teasing cough, untimely appetite, chills and fevers, and the like. The liver is the seat of the life, and its health is the key to the health of the whole system.

The liver is the seat of the life, and its health is the key to the health of the whole system.
